

Building iPhone Apps with HTML, CSS, and JavaScript

Filesize: 1.2 MB

Reviews

This ebook will be worth acquiring. It is actually written in basic phrases instead of hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Trystan Yundt)

BUILDING IPHONE APPS WITH HTML, CSS, AND JAVASCRIPT

O'Reilly Media. Paperback. Book Condition: New. Paperback. 186 pages. Dimensions: 9.1in. x 7.0in. x 0.5in. What people are saying about Building iPhone Apps w HTML, CSS, and JavaScript The future of mobile development is clearly web technologies like CSS, HTML and JavaScript. Jonathan Stark shows you how to leverage your existing web development skills to build native iPhone applications using these technologies. --John Allsopp, author and founder of Web Directions Jonathans book is the most comprehensive documentation available for developing web applications for mobile Safari. Not just great tech coverage, this book is an easy read of purely fascinating mobile tidbits in a fun colloquial style. Must have for all PhoneGap developers. -- Brian LeRoux, Nitobi Software It's a fact: if you know HTML, CSS, and JavaScript, you already have the tools you need to develop your own iPhone apps. With this book, you'll learn how to use these open source web technologies to design and build apps for the iPhone and iPod Touch on the platform of your choice—without using Objective-C or Cocoa. Device-agnostic mobile apps are the wave of the future, and this book shows you how to create one product for several platforms. You'll find guidelines for converting your product into a native iPhone app using the free PhoneGap framework. And you'll learn why releasing your product as a web app first helps you find, fix, and test bugs much faster than if you went straight to the App Store with a product built with Apples tools. Build iPhone apps with tools you already know how to use Learn how to make an existing website look and behave like an iPhone app Add native-looking animations to your web app using jQuery Take advantage of client-side data storage with apps that run even when the iPhone is offline Hook into advanced iPhone...
