NATURE AND THE HUMAN SOUL: CULTIVATING WHOLENESS AND COMMUNITY IN A FRAGMENTED WORLD

New World Library. Paperback. Book Condition: New. Paperback. 528 pages. Dimensions: 8.9in. x 6.0in. x 1.4in. Addressing the pervasive longing for meaning and fulfillment in this time of crisis, *Nature and the Human Soul* introduces a visionary ecopsychology of human development that reveals how fully and creatively we can mature when soul and wild nature guide us. Depth psychologist and wilderness guide Bill Plotkin presents a model for a human life span rooted in the cycles and qualities of the natural world, a blueprint for individual development that ultimately yields a strategy for cultural transformation. With evocative language and personal stories, including those of elders Thomas Berry and Joanna Macy, this book defines eight stages of human life - Innocent, Explorer, Thespian, Wanderer, Soul Apprentice, Artisan, Master, and Sage - and describes the challenges and benefits of each. Plotkin offers a way of progressing from our current egocentric, aggressively competitive, consumer society to an ecocentric, soul-based one that is sustainable, cooperative, and compassionate. At once a primer on human development and a manifesto for change, *Nature and the Human Soul* fashions a template for a more mature, fulfilling, and purposeful life - and a better world. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
