MODELING COST AND PERFORMANCE FOR MILITARY ENLISTMENT: REPORT OF A WORKSHOP

National Academies Press. Paperback. Book Condition: new. BRAND NEW, Modeling Cost and Performance for Military Enlistment: Report of a Workshop, Committee on Military Enlistment Standards, Commission on Behavioral and Social Sciences and Education, Division of Behavioral and Social Sciences and Education, National Research Council, National Academy of Sciences, This book describes a cost/performance trade-off model useful for illustrating the effects of budget decisions on the quality of expected performance in the military enlisted force. The model links recruit quality to job performance on the one hand and personnel costs on the other. Understanding these linkages provides a clear rationale, based on performance and cost differences, for choosing applicants for military service. The book examines trends in the quality of military personnel from the beginning of the All-Volunteer Force in 1974 to the year 2000 and beyond. It discusses technical issues associated with the development of the various components of both cost and performance linkages and presents applications of the fully developed model.
