

Illuminating Engineering Practice; Lectures on Illuminating Engineering Delivered at the University of Pennsylvania, Philadelphia, September 20 to 28, 1916

By Pennsylvania University

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 Excerpt: .of color in aiding and pleasing mankind. This aspect of lighting is endless in extent and its ramifications are numberless. No strict classification will be adhered to but in general those having a more scientific basis for existence will be treated first while those involving chiefly aesthetic taste will be discussed later. Artificial North Skylight.--This quality of light is the most generally acceptable for accurate color work, such as in matching and in inspecting colors. There is no need to discuss it further than to record the classes of work for which it is being used at present. It is not used for lighting large areas in the sense of general lighting although there are some rather extensive installations in existence. Artificial north skylight is at present used in the following places and occupations and perhaps in others: department stores, color printing, textile mills, dye houses,...
