*An exceptional ebook along with the typeface employed was intriguing to see. It really is simplistic but surprises within the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.*

St Martin's Press. Paperback. Book Condition: new. BRAND NEW, The Elysium Commission, L. E. Modesitt, A brilliant scientist on the planet Devanta has created a small universe contiguous to ours - and a utopian city on one of the planets. The question becomes, though, an utopia for whom? And why is a shady entertainment mogul subsidizing the scientist? More critical than that, does this new universe require the destruction of a portion - or all - of our universe in order to grow and stabilize? Blaine Donne is a retired military special operative now devoted to problem-solving for hire. He investigates a series of seemingly unrelated mysteries that arise with the arrival of a woman with unlimited resources who has neither a present nor a past. The more he investigates, the more questions arise, including the role of the two heiresses who are more - and less - than they seem, and the more Donne is pushed inexorably toward an explosive solution and a regional interstellar war.
