Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Theory of Accounts: Containing the Essentials of Bookkeeping and Forms of Higher Accounting In introducing this volume the author desires to say that it has not been prepared as a reference book for expert accountants, but as a text-book for students who may begin the study with a very limited knowledge of the subject of Accounts. We have selected a starting point that is plain, practical, and easily comprehended by all, and by carefully graded steps have led the thoughtful student to the broader principles of the Science of Accounts. The book has been written for the theoretical study of Accounts. It is not intended to furnish material for Business Practice, but rather to prepare the student for intelligent work in Business Practice or counting room. In developing the subject it has been the author's aim to give standard forms and methods as they are now used by business men, avoiding, on the one hand, the obsolete forms that appear in many text-books, but which the commercial world has long since passed in its career of progress. Bookkeeping as a study has a commercial value only when its methods are modern and abreast of the times; while the classical methods used ten or twenty years ago are now of little worth to the student who intends to make practical use of his commercial study. On the other hand we have aimed to avoid some of the new methods which may be adapted to isolated cases in business, but which do not assist the student in acquiring a working knowledge of bookkeeping as a science and an art. We trust that the student will...
