Fortunately, one of the world's leading XML experts is ready to show you how to avoid XML pitfalls on your next project. Since its invention, David Megginson has been helping to drive XML to new levels. He led the team that developed the SAX streaming API now used worldwide, has been a key contributor to the World Wide Web Consortium, and has served as a consultant to many of the world's leading companies, including Boeing, Reuters, and McGraw-Hill. Drawing on this vast experience, Megginson offers in this book expert solutions and problem-solving guidance for virtually any XML project challenge. You'll discover best practices for planning, budgeting, scheduling, and managing any XML project: content management, data interchange, legacy integration, or Web services. And you'll find technical insights that only an expert like Megginson can offer. 229 pp. Englisch.
