Scale Car Modelling

By Mat Irvine

The Crowood Press Ltd, United Kingdom, 2012. Paperback.
Book Condition: New. 244 x 188 mm. Language: English . Brand New Book. Cars have always appealed as model subjects as - unlike aeroplanes or military subjects - the real thing is likely to be sitting outside the modeller's house. From the first car kits produced in the early 1950s, mainly dominated by American machinery, we now have a choice of automotive examples from around the world. The joint scale of 1:24/1:25 dominates car models, and it is these scales that will mostly be found in this book, from stock builds to race cars to wild customs. In addition, although injection styrene is the main material of choice, there are specialist builds using resin, white metal and photo-etched parts.
