WHAT A DROP OF BLOOD CAN TELL.

Seh-Sam Verlag Jun 2014, 2014. Buch. Book Condition: Neu. 211x139x17 mm. Neuware - Many therapists are looking for a simple method by which blood can be evaluated inexpensively but still individually. The HLB coagulation test is one such solution. The HLB coagulation test complements the quantitative, orthodox blood count with qualitative information about the condition of the individual patient. For this test, a drop of capillary blood must be taken from the fingertip and spread in series on a specimen...
