Springer-Verlag New York Inc. Paperback. Book Condition: new. BRAND NEW, Cardiac Transplantation: A Manual for Health Care Professionals (Softcover reprint of the original 1st ed. 1991), Jeffrey D. Hosenpud, Adnan Cobanoglu, Douglas J. Norman, Albert Starr, Over the past ten years, cardiac transplantation has evolved from an experimental procedure performed in a handful of university centers to a viable therapeutic modality now performed in more than 150 centers worldwide. The complexity of the procedure, the changing immunosuppressive regimens, and the follow-up care have necessitated a multidisciplinary approach involving a variety of medical, nursing, and social sciences specialties and subspecialties. In addition, health care trainees and referring physicians are increasingly becoming involved in the care of the cardiac transplant recipient. This book does not attempt to be a comprehensive treatise on cardiac transplantation; rather, we hope that it will serve as a manual and guideline for all health professionals involved in cardiac transplantation.
